#### AI DEVELOPER

Since 2022 Grenoble Alpes Métropole Grenoble, France

- Working within the Open Data team
- ETL | Talend, FME
- Data cleaning | Python
- Training Artificial Intelligence models | Python, JS
- Application development | Flask, Django, JS

#### Founder

2023 Mirakle France

As the founder of a TikTok B2B agency, I wore multiple hats and played a pivotal role in driving business growth.

- Web Development: Developed a sleek, simple and intuitive landing page using technologies like Tailwind, HTML, and CSS. The landing page, hosted on GitHub Pages, facilitated client appointments ([www.mirakle.agency](http://www.mirakle.agency)).
- Sales and Outreach: Successfully executed cold emailing strategies to identify and engage potential clients. Effectively communicated the value proposition of our agency's services to drive conversions.
- Additional Responsibilities: Managed various other tasks vital to the agency's operations, ensuring seamless functionality and contributing to overall success.

#### RADIO REPORTER - INTERNSHIP

2021 Radio D'ici Annonay, France

- Work in a team on broadcasts for a local radio station
- Design a radio show about technology and its history

### libraries

**TensorFlow - Keras - Numpy - Matplotlib - Pandas - D3.js - Scikit learn - Mapbox GL JS**

### Web

**JavaScript - Tailwind**

**Django - Flask - FastAPI**

**HTML - CSS**
